## Informed Consent for Telehealth Medical Services

Telehealth medicine is healthcare services provided by electronic communication rather than a traditional face-to-face in office visit with a licensed healthcare provider. Consultation via videoconferencing, telephonic communication, transmission of still images, e-health technologies, patient portals, and remote patient monitoring are all considered telehealth services.

( ) I understand that telehealth involves the communication of my medical health information in an electronic or technology-assisted format.

( ) I understand that I may opt out of the telehealth services and return to a face to face in office visit at any time. This will not change my ability to receive future care from Healthy Asians & Pacific Islanders Medical Center

( ) I understand that telehealth services can only be provided to patients whom reside within the state of the licensed provider.

( ) I understand that telehealth billing information is collected in the same manner as a regular office visit. My financial responsibility will be determined individually and governed by my insurance carrier(s), Medicare, or Medicaid, and it is my responsibility to check with my insurance plan to determine coverage.

( ) I understand that all electronic medical communications carry some level of risk. While the likelihood of risks associated with the use of telehealth in a secure environment is reduced, the risks are nonetheless real and important to understand. These risks include but are not limited to:

- It is easier for electronic communication to be forwarded, intercepted, or even changed without my knowledge and despite taking reasonable measures.
- Electronic systems that are accessed by employers, friends, or others are not secure and should be avoided. It is important for me to use a secure network.
- Despite reasonable efforts on the part of my healthcare provider, the transmission of medical information could be disrupted or distorted by technical failures.

( ) I agree that information exchanged during my telehealth visit will be maintained by the physician (s) or other healthcare providers involved in my care at Healthy Asians & Pacific Islanders Medical Center.

( ) I understand that medical information, including medical records, are governed by federal and state laws that apply to telehealth. This includes my right to access my own medical records. I further understand that a signed medical records release will be required at the time of my request.

( ) I understand that a HIPAA compliant telehealth program will be utilized for all telehealth visits. Skype, Zoom, Google Meet, FaceTime, or a similar service does not provide a secure HIPAA-compliant platform and therefore cannot be used in replacement of the practice's telehealth program due to the patient's connectivity difficulties.

( ) I understand that I must take reasonable steps to protect myself from unauthorized use of my electronic communications by others.

( ) The healthcare provider is not responsible for breaches of confidentiality caused by an independent third party or by me.

( ) I agree that I have verified to my healthcare provider my identity and current location in connection with the telehealth services. I acknowledge that failure to comply with these procedures may terminate the telehealth visit.

( ) I understand that I have a responsibility to verify the identity and credentials of the healthcare provider rendering my care via telehealth and to confirm that he or she is my healthcare provider.

( ) I understand that electronic communication cannot be used for emergencies or time-sensitive matters. Electronic communication should never be used for emergency communications or urgent requests. Emergency communications should be made to the provider's office or to the existing emergency 911 services in my community.

( ) I understand and agree that a medical evaluation via telehealth may limit my healthcare provider's ability to fully diagnose a condition or disease. As the patient, I agree to accept responsibility for following my healthcare provider's recommendations—including further diagnostic testing, such as lab testing, a biopsy, or an in-office visit.

( ) I understand that electronic communication may be used to communicate highly sensitive medical information, such as initial diagnosis, treatment or change in plan of care.

( ) I understand that my healthcare provider may be required to forward my information to an authorized third party. Therefore, I have executed a separate electronic communications agreement.

**I certify that I have read or have had this consent read to me. I further acknowledge that I fully understand this agreement and that I have had the opportunity to have questions answered to my satisfaction. I understand the inherent risks of errors or deficiencies in the electronic transmission of health information and images during a telehealth visit. I understand that there is never a warranty or guarantee as to a particular result or outcome related to a condition or diagnosis when medical care is provided.**

**By voluntarily signing this consent, I agree to proceed with telehealth medical services and care, as well as waive and release Healthy Asians & Pacific Islanders Medical Center and any of its providers from any claims I may have about the telehealth visit.**
